

STRENGTHENING PUBLIC BENEFIT ORGANIZATIONS WITH GREEN STORMWATER INFRASTRUCTURE

A cost-saving, attractive, eco-friendly landscaping solution, green stormwater infrastructure offers a host of benefits for public benefit organizations like schools, parks, social service agencies, and public housing authorities, as well as the diverse populations they serve. Greenprint Partners is a mission-driven green infrastructure delivery partner that works with mission-aligned organizations to deliver green infrastructure that maximizes benefits to the community.

Why Green Stormwater Infrastructure?

Reduces Long-term Costs

Green infrastructure designs make public and private properties more resilient to changing weather patterns, reducing flooding and water damage risks.

Increases Wellbeing + Focus

Green infrastructure designs can improve physical and mental health, as well as focus and academic performance, particularly for vulnerable youth populations.

Improves Social Cohesion

Green infrastructure can be designed to create safe, attractive spaces for the community to connect in positive ways, leading to stronger cohesion.

Examples of Green Stormwater Infrastructure

Green infrastructure designed to strengthen public benefit organization can take many attractive forms, from trees, to gardens, to green roofs, but it shares a common feature: it naturally manages stormwater right where it lands, reducing flood risks and stress on existing infrastructure.

The Benefits of Well-Designed Green Space

BEAUTIFICATION

Increases quality of life and economic development

ACADEMIC PERFORMANCE

Increases student focus and performance

RESILIENCE

Decreases flood risk and associated social upheaval

REDUCED CRIME

Reduces criminal activity; increases eyes on the street

HEALTH

Reduces disease and decreases stress

ACTIVE LIVING

Increases healthy physical activity outdoors

SOCIAL COHESION

Offers more welcoming community gather spaces

GOOD JOBS

Leads to construction and long term maintenance jobs

Greenprint Partners is a green infrastructure delivery partner that helps cities build high-impact, community-driven green infrastructure at scale. We are a woman-owned B-Corp. Get in touch at [GreenprintPartners.com](https://www.GreenprintPartners.com).

GREEN INFRASTRUCTURE TRANSFORMS COMMUNITIES. WE PARTNER WITH CITIES TO DELIVER MORE, BETTER, FOR ALL.
